Abstract: The Canadian Border Boat Landing Permit, U.S. Customs and Border Protection (CBP) Form I-68, generally allows select individuals entering the United States along the northern border by small¹ pleasure boats to report their arrival and make entry without having to travel to a designated port of entry for an inspection by a CBP officer. United States citizens, Lawful Permanent Residents of the United States, Canadian citizens, and Landed Residents of Canada who are nationals of the Visa Waiver Program countries listed in 8 CFR 217.2(a) are eligible to apply for the permit.

¹ Weighing less than five net tons.

The information collected on CBP Form I-68 allows eligible individuals who enter the United States from Canada by small pleasure boats to be inspected only once during the boating season, rather than each time they make an entry. This information collection is provided for by 8 CFR 235.1(g) and Section 235 of Immigration and Nationality Act.

CBP Form I-68 is accessible at

<http://www.cbp.gov/newsroom/publications/forms?title=68&=Apply>.

CBP has developed a smart phone application known as Reporting Offsite Arrival – Mobile (ROAM) that will generally allow travelers to electronically complete their I-68 application, report their arrival in the United States, and make U.S. entry using automated document (passport) reading, global positioning system (GPS) location, and video chat. CBP believes providing the traveling public with the option to use this smart phone app will increase traveler compliance with U.S. arrival and entry requirements. Additionally, the ROAM app will allow CBP officers to remotely conduct traveler interviews with a phone's video chat capability, and replace other technologies used for remote inspections that are obsolete or inefficient.
